PROFESSIONAL SUMMARY

MERN Stack Developer with hands-on experience building scalable, responsive SaaS web applications using modern JavaScript technologies. Proficient in React.js, Tailwind CSS, Node.js, Express.js, and MongoDB, with experience developing end-to-end features across frontend and backend. Strong focus on performance, usability, security, and clean, maintainable code.

TECHNICAL SKILLS

Web Technologies: HTML5, CSS3, JavaScript (ES6+)
Frontend: React.js, Tailwind CSS
Backend: Node.js, Express.js
Database: MongoDB, MySQL
APIs & Tools: REST APIs, Git, RBAC (Role-Based Access Control), Google Analytics

---

PROFESSIONAL EXPERIENCE

MERN Stack Developer
MoovOn Service & Solutions | Present

- Developing full-stack SaaS applications using MongoDB, Express.js, React.js, and Node.js.
- Building responsive user interfaces with React.js and Tailwind CSS focused on usability and performance.
- Integrating RESTful APIs and managing client-server communication and application state.
- Implementing pagination and optimizing data rendering for large datasets.
- Developing frontend Role-Based Access Control (RBAC) for permission-based navigation and protected routes.
- Creating reusable, scalable React components following modern best practices.
- Contributing to backend development including API creation and database integration under senior guidance.
- Collaborating with cross-functional teams to deliver new SaaS features and enhancements.
- Maintaining modular code and improving application performance and scalability.

Frontend Developer Intern
Ervon Technology | 6 Months

- Designed and developed responsive web pages using HTML, CSS, and JavaScript.
- Built interactive UI components for client-facing applications.
- Used React.js and Bootstrap to develop dynamic user interfaces.
- Ensured cross-browser compatibility and optimized user experience.

PROJECT EXPERIENCE

Taskji.com — SaaS Task Management Platform
MoovOn Service & Solutions

- Contributed to frontend development of a SaaS task management system.
- Implemented UI components using React.js and Tailwind CSS.
- Integrated backend APIs and improved user workflows.
- Applied modular component architecture to support scalability.

Blog Platform — Scalable Content Management System
MoovOn Service & Solutions

- Led backend development using Node.js, Express.js, and MongoDB.
- Implemented JWT-based authentication with Access and Refresh Tokens.
- Developed file upload system using Multer with Cloudinary cloud storage integration.
- Designed scalable data models and MongoDB aggregation pipelines.
- Applied MongoDB middleware (hooks) for validation and business logic enforcement.
- Configured CORS for secure API communication.
- Built RESTful APIs for content publishing, user management, and role-based operations.
- Guided intern developers during backend implementation.

EDUCATION

MERN Stack Development (Ongoing) — Apna College
Web Technologies Certification — JSPIDERS, Bangalore (2024)
B.Tech in Mechanical Engineering — ABIT, Cuttack (2023)

ADDITIONAL INFORMATION

Teaching Experience: Trained students in HTML, CSS, and JavaScript fundamentals with practical exercises.
Languages: Odia, English, Hindi
